

I would like you to know how important K-LOVE radio station is to my family & myself. We love to hear music, especially in our cars. We value positive & uplifting music with a pleasant beat. My children need a positive influence because they hear the opposite from the TV and other music when we are in public areas. Parents at my children's school also talk about wanting a positive influence in their children's lives and I have told them about K-LOVE. If we did not have K-LOVE to listen to, we would have more tension & stress in our lives. I see many vehicles driving under stress & I know they would benefit if they listened to K-LOVE, a destressor & it focuses on what really is important.
